

Membership Information

Our Mission

OCP International Partnership's (OCP-IP's) mission is to promote and support OCP as the complete socket standard that ensures rapid creation and integration of interoperable virtual components.

Benefits

- Access to industrial grade tools that support the Standard
- Free access to all membership products, tools and services
- Hot line and e-mail technical support
- Participation in OCP-IP events, work groups and member meetings
- Free access to verified VCI to OCP conversion veneers and documentation
- Access to the Members Only Web site
- Free listing on the OCP-IP Web site
- The ability to contribute to OCP enhancements and access specifications in both draft and adopted form
- Free training material and tutorials for both the OCP Standard and industrial grade checkers and software tools
- Ability to associate with key industry leaders in the EDA / SoC community
- Ability to list IP and/or EDA products on OCP-IP Web site
- And many more...

Membership Levels

Governing Steering Committee (GSC)

GSC member dues are determined by the GSC, which is the governing body for OCP-IP. Members in this category provide the highest level of organizational support and are afforded the opportunity to appoint a representative to the GSC. GSC members also participate in directing the creation of work groups and have the rights and privileges of all other Members.

Sponsor

Sponsor member dues are \$25,000 per year. Members may nominate themselves or be nominated by other OCP-IP members to serve on any GSC-established work group. Sponsor members also have free access to all OCP-IP products and services, compliance certification (fee-based) and may participate in OCP-IP events. Sponsor members have all the rights and privileges of Community members.

Community

Community member dues are \$10,000 per year. Members may provide input to GSC-established work groups and may participate in OCP-IP events. Community members also have free access to all OCP-IP products and tools and may submit products for any fee-based compliance certification programs made available to members.

University

University member dues are \$1,000 per year. Members may provide input to GSC-established work groups and may participate in OCP-IP events. University members also have free access to all OCP-IP products and tools and may submit products for any fee-based compliance certification programs made available to members.

Participant

Participant member dues are waived. Members are afforded access to commercial use of the OCP Standard and are issued an official vendor identification (VID) number. No other benefits are conferred.
